Register now for best price on the SIR Claim - Product Summit and Seminars

Technology and data are transforming the nature of competition in the insurance industry. Insurers can either harness this avalanche of information, or get buried by it. Firms that are successful are separating themselves from their competition based on insights drawn from claims data. It is important to get on the leading edge of technology, but equally important to avoid the bleeding edge.

Sound daunting?

Then let the SIR help!

We are holding a **Claim / Product Summit March 9 – 12, 2008 in San Antonio**, Texas. At the Summit, you will be able to:

- Hear industry leaders like Mitchell Medical, CCC Information Services, ISO Claim Services, Xactware, Guy Carpenter, Injury Sciences, MSB, ISO Innovative Analytics, and other savvy providers share their perspectives on how to climb the mountain of claims data.
- Network with other claims, product development, and underwriting experts.

Plus, back by popular demand, the SIR will be offering two Pre-Conference seminars, **Insurance Fundamentals** and **Product Development**.

Sound interesting?

The time to register is now, while discounted pricing is still in effect!

Click for more [information](#) or to register now.

This event will be held in the Hyatt Regency Hotel, at the prime location on San Antonio's famous **River Walk**. Our **conference rate of \$190 is a tremendous bargain** for this beautiful time of year in San Antonio, and it is **available 3 days before and 3 days after** the event so you can bring the family and spend a few extra days in one of America's most visited cities. Click for [hotel](#) information and [things](#) to do in the area.

We look forward to seeing you in San Antonio!
